About Us

"**AmbiRisk** Environmental Consultancy is a **UAE-based** Category A environmental consultancy with over **10 years** of experience in delivering specialized services across environmental management, health and safety, security, marine ecology, sustainability, and risk management. The company provides comprehensive consulting solutions to government, industrial, infrastructure, and development sectors, ensuring regulatory compliance and sustainable project delivery."

Registered with EPDA-RAK, Fujairah, and Ajman Municipality, we operate as a trusted advisor to government entities, private developers, and industrial clients across the UAE, helping them navigate complex environmental and regulatory landscapes with confidence.

We are an ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 certified company. Our team brings deep technical expertise backed by international standards, field experience, and a commitment to sustainable, practical outcomes.

Headquartered at Julphar Office Tower, Ras Al Khaimah, with active presence across the Emirates.

Mission & Vision Statement

Our Mission

To protect people, the environment, assets, and reputation, by delivering suitable, sustainable, acceptable, feasible, and ethical consultancy services across environment, health, safety, and risk management.

Our Vision

To be the destination of choice for the communities we serve the most preferred and respected environmental consultancy in every location we operate.

GM's Message

At **AmbiRisk**, we believe environmental responsibility and business growth are not in conflict, they go hand in hand.

Our role is to help our clients understand their environmental and risk obligations clearly, plan for them intelligently, and execute with the highest standards of technical excellence. Whether we are conducting an Environmental Impact Assessment, managing a marine ecology study, or supporting a client through an EHS audit, the goal is always the same, practical, credible, and lasting outcomes.

We are proud to be a registered and trusted consultancy in the UAE, and we remain committed to setting the benchmark for environmental and risk management services in the region.

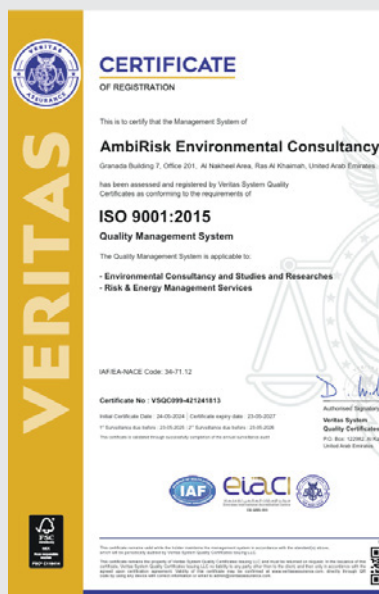

Mahesh Chand
General Manager

- Category A Environmental Consultancy – UAE

Services Overview

A comprehensive range of environmental, safety, and risk management services, tailored for the UAE regulatory environment.

- Environmental Studies, Research & Assessment
- Marine Ecology Studies
- Risk Management Services
- EHS Services – Construction & Operational Phase
- Energy Management Services
- Waste Management Services
- Training & Awareness
- Consultation on Legal Compliance
- Social Impact Assessment
- Sanitation, Hygiene & Occupational H&S Management

Environmental Studies, Research & Assessment

We conduct comprehensive environmental studies and assessments to support project approvals, regulatory compliance, and sustainable planning across the UAE. Our assessments are designed to meet the requirements of UAE municipal and federal authorities, ensuring clients are fully prepared before, during, and after project execution.

What we deliver:

- Environmental Impact Assessments (EIA)
- Environmental Site Assessments (ESA)
- Baseline Environmental Studies
- Environmental Monitoring Programs
- Environmental Audits and Compliance Reviews
- Environmental Social Impact Assessment (ESIA)

Marine Ecology Studies

Our marine ecology expertise covers coastal and offshore environments, supporting developers, government bodies, and industrial clients with scientifically rigorous assessments.

We understand the UAE's unique marine environment, from coral reef systems to coastal development corridors, and provide studies that meet the expectations of regulatory authorities.

What we deliver:

- Marine Baseline Surveys
- Coral Reef and Benthic Habitat Assessment
- Marine Water Quality Monitoring
- Coastal Impact Assessments
- Marine Ecology Reports for EIA submissions
- Mangrove and Seagrass Studies

Risk Management Services

We help organizations identify, evaluate, and manage risks before they become costly incidents, converting risk exposure into structured, manageable frameworks.

Our team works across industrial, infrastructure, and commercial sectors, applying internationally recognized methodologies suited to UAE regulatory standards.

What we deliver:

- Quantitative & Qualitative Risk Assessment (QRA)
- HAZOP Studies
- Process Hazard Analysis (PHA)
- Job Hazard Analysis (JHA)
- Emergency Response Planning
- Business Continuity & Risk Mitigation Planning
- Safety Integrity Level (SIL) Assessment

EHS Services

We provide end-to-end Environment, Health & Safety support for both construction phase and operational phase projects, ensuring full regulatory compliance and a safe working environment at every stage.

Construction Phase:

- EHS Plans and Method Statements
- On-site EHS Supervision and Monitoring
- Construction Environment Management Plans (CEMP)
- Mock Drills and Emergency Preparedness
- Incident Reporting and Investigation

Operational Phase:

- EHS Audits and Inspections
- Legal Compliance Reviews
- EHS Management System Development
- Permit to Work Systems
- Ongoing EHS Monitoring

Energy Management Services

With rising energy costs and increasing regulatory pressure around sustainability, AmbiRisk helps organizations take control of their energy consumption and meet their environmental targets.

We support ISO 50001 implementation and provide practical energy solutions that reduce costs and carbon impact.

What we deliver:

- Energy Audits and Consumption Analysis
- ISO 50001 Energy Management System Consultation
- Carbon Footprint Accounting & Verification
- Energy Efficiency Improvement Plans
- GHG Emissions Inventory and Reporting
- Renewable Energy Feasibility Studies

Waste Management Services

Improper waste handling is one of the most common compliance risks for UAE-based businesses. AmbiRisk provides practical, regulation-aligned waste management solutions that protect the environment and keep clients compliant.

What we deliver:

- Waste Management Plans (WMP)
- Waste Audits and Classification
- Hazardous Waste Management Protocols
- Construction & Demolition Waste Planning
- Waste Minimization Programs
- Regulatory Reporting and Documentation

Training & Awareness

Knowledge is the first line of defense. AmbiRisk delivers targeted training programs for corporate teams, site workers, and management, covering EHS, environmental compliance, and risk management.

All programs are tailored to client-specific operations and UAE regulatory context, and can be delivered on-site, in a classroom, or virtually.

Programs include:

- EHS Awareness and Induction Training
- Environmental Compliance Training
- Fire Safety and Emergency Response
- Chemical Handling and Hazardous Materials
- SO Systems Awareness (9001, 14001, 45001)
- Customized Industry-Specific Workshops

Legal Compliance & Social Impact

Consultation on Legal Compliance

We help organizations stay ahead of evolving UAE environmental and safety regulations, reviewing current operations, identifying gaps, and building practical compliance roadmaps aligned to federal and emirate-level requirements.

What we deliver:

- Regulatory Gap Analysis
- Legal Register Development and Maintenance
- Compliance Audits
- Government Liaison and Documentation Support

Social Impact Assessment

We assess the social dimensions of development projects – covering community impact, resettlement, stakeholder engagement, and social sustainability.

- Social Impact Assessment (SIA) Reports
- Stakeholder Consultation Frameworks
- Rehabilitation & Resettlement Planning
- ESG Reporting Support

Sanitation, Hygiene & Occupational H&S Management

We provide sanitation, hygiene, and occupational health assessments that address both regulatory obligations and the wellbeing of workers and site personnel, particularly relevant for construction sites, labor accommodations, and industrial facilities in the UAE.

What we deliver:

- Sanitation and Hygiene Assessments
- Labor Accommodation Compliance Reviews
- Occupational Health Risk Assessments
- Indoor Air Quality and Noise Surveys
- Drinking Water Quality Testing
- Workplace Hygiene Improvement Plans

ISO Consultation Services

AmbiRisk holds certified auditors and assessors for a full range of ISO standards. We guide organizations through the entire implementation and certification journey, from gap assessment to successful third-party audit.

Standards we cover:

- ISO 9001:2015 – Quality Management
- ISO 14001:2015 – Environmental Management
- ISO 45001:2018 – Occupational H&S Management
- ISO 50001 – Energy Management
- ISO 14064 – Greenhouse Gas Accounting
- ISO 27001 – Information Security Management
- ISO 22301 – Business Continuity Management
